## HEALTHY RELATIONSHIP & MARRIAGE EDUCATION TRAINING

A healthy couple and co-parenting relationship is linked to more positive parenting, stable families, and healthier children. The Healthy Relationship and Marriage Education Training (HRMET) was originally developed, with funding from the Administration on Children, Youth and Families Children's Bureau, to meet the safety, permanency, and well-being needs of vulnerable children in the child welfare system by increasing access to and implementation of relationship and marriage education. This training is ideal for all professionals who work with youth and adults in Georgia and wish to promote healthy couple and co-parenting relationships. During this 1-day training, participants will receive tools and learn strategies to empower individuals with skills that can strengthen couple and family relationships.

*"The training was not only relevant to my job and the services we provide, I can also utilize the information in my own relationships which will help me better teach the class to our clients." (2014 participant)*

**Objective:** This training will prepare professionals to understand and teach skills that can empower individuals to form and maintain healthy couple and co-parenting relationships.

**Cost:** \$65 per participant. Bring a friend and save! \$110 for two participants!
