Pinwheels for Prevention® is a national public awareness campaign during Child Abuse Prevention Month (CAP Month) every April, designed by Prevent Child Abuse America to communicate efforts and change the way states think about prevention. Prevent Child Abuse Georgia (PCA GA) encourages community activities and the support of public policies that prioritize healthy child development and child abuse prevention right from the start!

Positive Messaging!

Research shows that while horrific stories of child abuse and neglect may gain short-term media attention, this approach is not successful in building lasting public will for effective prevention efforts. To promote lasting change, the pinwheel messages must focus on proposing effective solutions and engaging people in positive, preventative action they can take on their own.

Talking Points, We All Have a Role to Play

Everyone can make a difference in a child’s life and as a community member, it is your responsibility to not only help people realize this, but to also communicate specifically how they can help.

“Pinwheel gardens” planted in communities across the nation are visual reminders that we all play a role in ensuring happy and healthy childhoods for all children everywhere. Their presence has resulted in increased awareness, expanded dialogue and community engagement around the healthy development of all children and the prevention of child abuse before it ever occurs.

Connect Pinwheels with Resources

Prevent Child Abuse Georgia supports 20 local councils throughout the state that are dedicated to preventing child abuse and neglect in all forms. Many provide direct services and act as prevention advocates in their communities.

The 1-800-CHILDREN Helpline is an information and referral line for caregivers and professionals looking for supportive programs in their area. Callers can talk to a trained individual who cares and wants to help.
